## Part IV

# Produce Section

On the following pages will be found lists of some of the principal producers, shippers and exporters of agricultural produce and allied lines arranged alphabetically by commodities. The nucleus of this section has been supplied by the Department of Trade and Commerce, Ottawa, but we have increased its scope by listing export merchants, forwarders, etc.

*Firms seriously interested in export trade have been marked with an asterisk.*

# GUIDE

## Indice Commercial

### Canadien

#### 2ème PARTIE

Commençant à la page 175, sur papier bleu, se trouvent les noms et les adresses des manufacturiers.

#### 3ème PARTIE

Commençant à la page 323, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.

Le mot principal en Anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, i.e., Quincaillerie, de construction: Cuir, coupe de bottines et chaussures. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, i.e., Mécanisme de piano —Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on desire l'adresse de la rue, voir la IIème Partie, commençant à la page 175. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqués par un asterisque\*.

#### 4ème PARTIE

Commençant à la page 713. Section Spécial indiquant les noms des exportateurs principaux des produits de la ferme, etc.

#### 5ème PARTIE

Commençant à la page 723 sur papier bleu. Section de Traduction—(a) Français, page 723. (b) Espagnol (édition limité), page 771. Les noms des articles donnés dans l'Indice Français et Espagnol sont suivis par leur équivalent en anglais, et l'équivalent en anglais se trouve placé alphabétiquement dans la IIIème Partie.

# Pledged to One Purpose *...the Hastening of* **VICTORY**

CANADIAN GENERAL ELECTRIC, with its long and exceptional experience, extensive manufacturing facilities and specially skilled personnel, has been entrusted with many of Canada's most challenging and exacting war production tasks.

FOR ALL the fighting services, the Company is building intricate and complicated battle equipment — guns, marine engines, aircraft instruments, searchlights, vital parts for tanks, planes and ships. It is manufacturing new and secret war devices . . .

TO SPEED and increase the output of war material in other plants, an impressive volume of industrial equipment is being manufactured — giant installations to generate and transmit

more electrical power . . . apparatus to facilitate its use in war factories and industries producing vital war materials . . .

AND the Company's workers are active and enthusiastic in the support of patriotic causes. They are serving as air-raid wardens, firemen, emergency nurses and in other auxiliary services. They have signed up for hundreds of thousands of dollars worth of Victory Bonds and War Savings Certificates.

YES! Canadian General Electric and the men and women who man its machines and assembly lines are backing Canada's war effort to the limit of their capacity. All their facilities, all their determination, all their endeavour stand pledged to one all-important objective — the hastening of Victory!

When writing to firms listed kindly mention CANADIAN TRADE INDEX

**THROUGHOUT THE WORLD**—our troops must have the best possible food on which to fight. They get it with canned food. It provides them with balanced, nutritious meals, saves shipping space, eases the supply problem.

## No more tin plate for many of you . . . means more “square meals” for them

**O**NLY THE BEST possible food is good enough for our troops. They must have this food in greater and greater quantities. That's why many items will not be packed in tin plate, as the war goes on.

This saves many tons of tin that will go into cans in which more food for carrying on the war will be packed. Food for our fighting forces. Food for civilians behind the lines. (Tin cans, as you may know, are the perfect containers for processed foods.)

*So—until the war is won, you'll have to do without the convenience, beauty, and traditional sales appeal of many tin-plated packages.*

Many substitute packages may be offered to you for your products. They may not be so good as the familiar *tin* package, but they'll be the best you can get while there's a war on.

And you can do your part by using your business imagination and capitalizing on these substitute containers. Adapt them to your filling lines. Sell them to your trade. Explain to your trade why these substitutes are necessary for the duration.

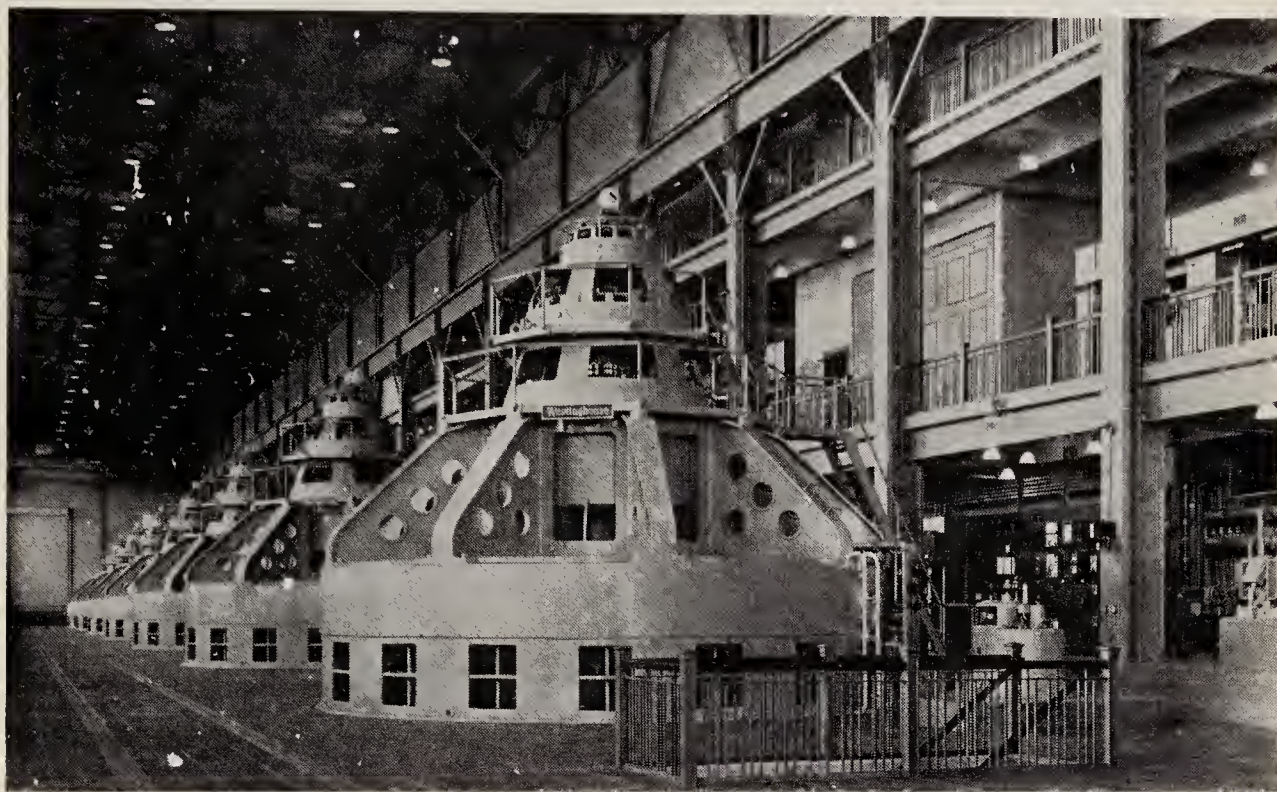

**REMEMBER:** The Government is doing a great job . . . for you, for all of us . . . in controlling the tin supply and directing it where it will do the most good.

In our own laboratories, research on containers is going steadily forward. This research promises not only to improve present containers for your use during the war, but also to develop even better containers of all kinds for your use after the war.

# POWER

POWER—More than nine million horsepower from such units as those pictured above has, more than any other single factor, made the development of Canada's tremendous Armament Industry possible.

WESTINGHOUSE, pioneer of the Alternating Current System, on which this tremendous power is based, proudly points to more than several million horse-

power of Westinghouse Generating Equipment doing a 100% job "on active service."

Many hundreds of thousands of additional horsepower have been harnessed since 1939 to supply Canada's vast new war industries, and this additional power will be available for the post-war needs of Canadian homes and factories.

# SPECIALISTS IN PAINT AND PAINT PRODUCTS

## *Since 1866*

FOR over 76 years the Sherwin-Williams Company have specialized in the development, perfecting and manufacture of paint products and paint products only. The knowledge and manufacturing skill gained by Sherwin-Williams paintmakers, and the standards built up over this period, cannot easily be duplicated. Today Sherwin-Williams' research, testing and manufacturing facilities are unequalled in the industry.

When you specify "Sherwin-Williams" you are sure of the best finish obtainable for the particular purpose.

# Shortcuts to Victory

Pictured here is the Modern 20" horizontal milling machine designed for milling of various components held either in vise or in fixtures, mounted on table surface, and performing operations by means of either single or gang cutters mounted on arbor. Longitudinal feed of twenty inches is provided lengthwise movement of work table only, for in the majority of production milling operations once the knee and cross slide are accurately set and locked, they are not moved again until another set-up is made.

"Modern" high speed precision machines are providing short cuts to Victory in ordinance plants in Canada, the United States and Great Britain.

"Modern" machines, whether they are of special design or standard types of milling machines, embody the most advanced engineering principles. Unnecessary features are eliminated . . . their streamlined appearance indicative of their performance, efficiency and accuracy.
